Profile

Frontend engineer specializing in React, TypeScript, responsive design, and CMS-driven interface systems. Strongest in component structure, design systems, rendering workflows, API-shaped data, and team ownership from data shape through delivery.

EDUCATION

General Assembly, 2018-2019

Front End Web Development
Software Engineering Immersive

EDX, 2017

Front End Web Development

School of the Art Institute of Chicago

Bachelors of Fine Arts

EXPERIENCE

Frontend Engineer

Coates Group | Chicago, IL | Aug 2025 – present

- Manage responsive layout delivery and Git-based workflow for 10,000+ Dunkin' stores.
- Onboard Taco Bell as an enterprise client by building its TypeScript menu rendering system with API-shaped data inputs.
- Delivered Panda Express content UI on a CMS-driven data pipeline.

Jr. Frontend Engineer

Coates Group | Chicago, IL | Aug 2024 – Aug 2025

- Scaled Dunkin' from pilot to production rollout across thousands of locations, building the Svelte-based content framework.
- Partnered with content teams to deliver CMS-driven media updates to client specifications.

Jr. UI Engineer

Coates Group | Chicago, IL | Feb 2020 – Aug 2024

- Won the 2022 Dunkin' pilot, helping secure the team's largest client relationship.
- Built TypeScript/React menu rendering UIs and SCSS design-system patterns for CMS-driven applications serving McDonald's Canada and Chick-fil-A.
- Developed internal tooling to streamline content creation and layout workflows.

Earlier Experience

Freelance UI / Full-Stack Development | Remote | 2019 – present

- Delivered React, Sass, Express, and MySQL work across Hoops By Holly and Groove360 projects.
- Contributed reusable components, responsive layouts, dashboards, landing pages, and API functionality as a self-directed contributor.

SKILLS

Languages: JavaScript, TypeScript

Frameworks: React, Svelte

Styling: CSS3, Sass/SCSS

Frontend Practices: Responsive design, design systems, APIs, Git workflows

Build Tooling: webpack, Vite, npm

Content & Data: CMS-driven rendering, menu data systems, API-shaped data, dynamic media delivery
